Sean Meehan, Principal

April 4, 2019

Dear Hiring Committee,

It is my pleasure to recommend Ms. Sandra Froonjian for your position as a *Teacher of Biological Science*. Ms. Froonjian has worked with me for one year as a leave-replacement teacher and I have been consistently impressed by her hard work, professional knowledge, and excellent judgement.

At Biotechnology High School, Ms. Froonjian taught four sections of *Introduction to Biology & Genetics*. The course is a core requirement for all incoming 9th graders and is heavy on laboratory practice. Ms. Froonjian impressed me from the beginning with her ability to manage the prep, supplies, and classroom experience. During the times I observed her, she always organized engaging, multimodal lessons designed to inspire students to mastering the learning objectives.

Outside the classroom, Ms. Froonjian collaborated well with her subject area colleagues and the faculty as a whole. She had an excellent working relationship with her mentor teacher, and Ms. Froonjian would often be proactive in asking questions or addressing a student concern. She was also a member of our School Improvement Committee (ScIP). There, she would actively participate in meetings and share perspectives as a new teacher.

Over the past year, Ms. Froonjian has consistently demonstrated the dedication, knowledge, and judgement of a veteran teacher. She is a natural in the classroom and was an excellent addition to our program. I recommend her without reservations.

If I could be of any help to your decision making process, please feel free to contact me at: smeehan@ctemc.org, 732-431-7209, or 908-692-2824 (cell).

Very truly,

Sean Meehan
Principal
